

# New Policy!

Due to ADA regulations, there will be a **\$10 fee** associated with the increasing cost of personal protective equipment (PPE) that Dental offices are required to wear to protect staff and patients.

The ADA is urging third-party payers to alter their fees to account for the increasing cost of PPE. The insurance policy is an agreement between you and the insurance company, this is **not** a guarantee of third-party payment. Because of this we ask that all patients be responsible directly for this fee.
